REAL BULL FIGHTS IN THE UNITED STATES

The Bulls, However, Are to Be Protected By Foot-Ball

(Special to The Times-Dispatch.) LOS ANGELISS, CAL., Sept. 29.—The first bull fight to be held in the West portion of the United States will be fought at Los Angeles Beach resort. Owing to the severity of the law, which prohibits the bloody and dangerous sport

prohibits the bloody and dangerous sport of Spain and Mexico, the matadors will armor the bulls in football costumes to protect the animals from butchery, although it is quietly amounced that the bull will be killed as per the regulations of scientific fighting.

George Engelhardt, of Mexico, has brought a hand of matadors and his arena assistants to Los Angeles to conduct the fight, and has been required to give heavy bonds that no "real" fighting will occur. Posters announcing the event, however, are emblagoned with the THE NEW ORLEANS oron, however, are emblazoned with the statement that "thrills will be pientiful," Recent fights across the Mexican border have drawn thousands of spectators from Los Angeles, and it is believed that the fight will be the beginning of future contests according to rules of the Spanish arens.

BLACK HAND ASSASSINS THROW DYNAMITE BOMB

(By Associated Press.)

NEW YORK, September 29.—A bomb filled with both dynamite and a quantity of inflammable oil, was thrown at the rear of a crowded tenement house at Eighth Avenue and One Hundred and Forty-third Street early to-day. More than a score of persons, who were sleeping at the time, were huried from their beds by the explosion, and two of them were carried from the house unconscious. Within a minute after the explosion flames had nearly enveloped the rearwalls of the tenement house. The police believe that "Black Hand" Italian assassins threw the bomb. The object of the attack was the rear door of an Italian barber shop, on the ground floor.

gress—A Doctor's Indictment.

The neglect by women of their proper role in life, their adoption of mental occupation in place of their domestic duties, improper methods of education and the migration from the fourity to the town were among the main reasons adduced by Dr. T. Hulkeley Hysion, physician to the Bethiem Hospital. In an address which he delivered yesterday before the British Medical Association at Lotester for the British growth of Insanity in the British team of the British team of the British and the British team of the British that the British team of education is, in fact, responsible for improving the population off the face of the country districts.

of education is, in fact, responsible for improving the population of the face of the country ing the population of the face of the country ing the population of the face of the country districts.

of 1870 we have been striving after the unstainable. The brain tax on the rising generation has become more and more irksome, and the sum of pauperism, overcowding and insanity has increased by leaps and bounds far beyond anything ever before known in the history of the empire, and to-day we are faced with the question whether the mental and physical health of the rising generation is not of more importance than in energy according to the capacity of the empire, and to-day we are faced by the problem of over-education, and on the other hand the fixing by the trade unions of the standard of energy according to the capacity of the very worst was doing a great doal to salure the physical condition of the people. But the race is not only suffering from the unphysiological habits of the male part of the population. Although much is being later to be assigned to then by nature. In point of fact, the obligations of motherhood in all sections are being more and more neglected.

But was a fact that the more woman aspired to exercise her mental functions the less capable she became of generaling a healthy society in the property of the country of the people of

FOUR GOLFERS OF REPUTE IN FOR THE FIRST HONOR

(By Associated Press.)

NEW ORLEANS. Sept. 29.—With the steady improvement in the yellow fever situation, there is expected to be a gradual reduction, beginning next week, of the forces now employed undar the auspices of the government in the struggle to eradicate the disease.

Some increase over the low record of the preceding four days was shown in to-day's report of new cases, but in view of the fact that the population to-day is much larger than it was a month ago, the percentage of sickness is considered exceedingly small. The day's deaths showed a decline.

The feeling of uncertainty regarding the visit of President Roosevelt still exists and there is some apprehension that the decision of the American Public Health Association to have a committee communicate to the President its sentiments of opposition to the visit at this time, may cause the cutting out of New Orleans from the present trip. Public opinion is almost a unit in believing that the President personally has not a shred of fear in connection with the trip. Any announcement therefore that the visit has been deferred will be satiributed to the pressure that apparently is being brought upon him, growing out of ignorance of the actual conditions prevailing here. It is promised that a decision will be given finally on Monday. (By Associated Press.)

A WHOLE BLOCK BURNED IN BENNETTSVILLE, S. C.

(By Associated Press.)

CHARLESTON, S. C., Sept. 29.—A special from Bennettsville, S. C., says the business block, west of the public square, was consumed by fire to-night, with the exception of the Planters Bank building. The fire was started by the explosion of a gas brazier in a bicycle shop, and the losses will aggregate about \$100,000. The buildings burned included the postoffice which was of wood; a large brick building, occupied by W. P. Breeden as harness and buggy store and stables; the Excelsior Hardware Company, and Wetherly's dry goods store. Although to-day there have been sixteen new cases of yellow fever reported, there have been but two deaths and both of these occurred about midnight last night. There are no desperately sick fever patients under treatment. A hopeful feeling pervades the health office. Very few suspicious cases are now under observation, and it is anticipated that the number of new cases to-morrow will be very materially lessened.

MAY POSSIBLY SOLVE BOSTON'S MURDER MYSTERY

BOSTON SWINDER WISSEN,
BOSTON, Sepi. 29, Miss Nathan,
daughter of Mrs. Louis Nathan, of Ballimore, came here to-day ani requested
the police to show her the torso of the
woman which was found in a dress suit
ense near the Winthrop Club on Thursday
of last week. She will see the bely tomorrow. The coming of Miss Nathan
has a possible bearing on the Winthrop
mystery, although the police do not attach
great importance to it. Miss Nathan is a
sister of Mrs. Maurice Schapiro, who has
been missing for nearly three weeks. Mrs.
Schapiro is the wife of a former West
End doctor, who has also been missing
for some time.

THE HUNGARIAN SITUATION IS NOW BECOMING CLEARER

(By Associated Press.)

BUDAPEST. September 22.—The situation is becoming clearer and evidence is accumulating that both the coalition leaders and the King-Emperor are sarnestly endeavoring to find a way out of the difficulty.

endeavoring to find a way but of inficulty.

It is believed by well informed persons that General Baron Fejervary will be reappointed premier with the right to carry on the elections on a platform calling for universal suffrage and that by this means a government majority will be so-cured in the flungarian det. Quiet has been completely restored in the city. Becoming.
